

A Comprehensive Telehealth System

The FORA 24/7 HealthView platform gives clinicians the right tools to remotely monitor their patients. With flexible reporting, care providers can generate individual or group reports as pie charts, trend graphs and scatter plots to easily identify patterns in their patients' health.

Plus, record and export CPT code data for easy billing and reimbursement.

Telehealth Connectivity Solutions

Built-in Cellular Connectivity

Bluetooth + Cellular Gateway

Bluetooth + Smartphone App

FORA's HIPAA-compliant 24/7 HealthView System supports various measurement data uploads which include: blood glucose, blood pressure, temperature, blood oxygen and weight control. Patients' test results are sent via cellular connection, gateway or mobile app to the 24/7 HealthView cloud.

REMOTE PATIENT MONITORING

2020 CPT CODES

With ForaCare's remote patient monitoring solution, you can increase patient access to care and improve chronic disease management—all while receiving reimbursement!

A total of 6 new CPT codes have been added to the 2019 and 2020 Medicare fee schedule in the category of Chronic Care Remote Physiologic Monitoring.

Step 1

CPT CODE 99453

Initial Set Up and Patient Education

Identify qualified Medicare patients to onboard onto ForaCare's remote patient monitoring solution. ForaCare will supply the FORA device to you, and then you'll set up the device by mapping it to the new patient as well as train the patient on how to use the FORA device.

You can receive reimbursement once per episode of care for the initial set up and patient education.

Bill CPT code 99453: "Remote monitoring of physiologic parameter(s) (e.g, weight, blood pressure, pulse oximetry, respiratory flow rate), initial; set-up and patient education on use of equipment."

Step 2

CPT CODE 99454

Device Supply with Daily Recordings

Supply a FORA device to your newly enrolled patients so they can get started with their daily recordings from the comfort of their home, or even on-the-go. As patients take their readings every day, the data will be automatically uploaded via cellular or Bluetooth connectivity to the 24/7 HealthView Telehealth System for review.

You can receive reimbursement for device supply with daily recordings for each 30-day period.

Bill CPT code 99454: "Device(s) supply with daily recording(s) or programmed alert(s) transmission, each 30 days."

Step 3

CPT CODE 99457

First 20 Minutes of Remote Monitoring

Your clinical staff, physicians, or other qualified healthcare professionals can monitor patient readings using the 24/7 HealthView Telehealth System and interact with the patient through a phone call, email, or text for a minimum of 20 minutes.

You can receive reimbursement for the first 20 minutes of monitoring for each 30-day period.

Bill CPT code 99457: "Remote physiologic monitoring treatment management services, 20 minutes or more of clinical staff/physician/ other qualified healthcare professional time in a calendar month requiring interactive communication with the patient/caregiver during the month."

Step 4

CPT CODE 99458

Additional 20 Minutes of Remote Monitoring

If more intense management is required beyond 20 minutes, your clinical staff, physicians, or other qualified healthcare professionals will continue to monitor the patient using the 24/7 HealthView Telehealth System and interact with the patient.

You can receive reimbursement for each additional 20 minutes of monitoring for each 30-day period.

Bill CPT code 99458 (in conjunction with CPT code 99457):
"Each additional 20 minutes."

New CPT Codes for Blood Pressure Monitoring

CPT CODE 99473

Patient Education and Device Calibration

Identify qualified Medicare patients with hypertension to onboard onto ForaCare's remote patient monitoring solution. ForaCare has already calibrated each FORA device at our manufacturing facility so it is ready for use immediately. You'll just need to set up the device by mapping it to the new patient and train each patient on how to use their new FORA device. You can receive reimbursement once per device for patient education.

Bill CPT code 99473: "Self-measured blood pressure using a device validated for clinical accuracy; patient education/training and device calibration."

CPT CODE 99474

Monitor Average Blood Pressure Levels and Provide Treatment Plan

Enrolled patients will use the provided FORA device to take an average reading of their blood pressure twice a day, and that data will be uploaded to the 24/7 HealthView Telehealth System. You can receive reimbursement once per calendar month for reviewing the readings, and for communicating a treatment plan to the patient.

Bill CPT code 99474: "Separate measurements of two readings one minute apart, twice daily over a 30 day period (minimum of 12 readings), collection of data reported by the patient and/or caregiver to the physician or other qualified health care professional, with report of average systolic and diastolic pressures and subsequent communication of a treatment plan to the patient."
